The Fish Grip is a new fish landing device developed by an expert angler and used by many fishing guides. You have our assurance that this quality product will help to successfully land a fish with less chance of injury either to the fisherman or to the fish, which may then be safely released.

- 🐟 Over center locking – grip to lock, flip to open
- 🐟 Unique jaw design – holds the lip of the fish
- 🐟 High viz color – easy to see, day or night
- 🐟 Weight scale slot – attach scale, deduct 5 oz.
- 🐟 Wrist lanyard – in case it slips
- 🐟 IT FLOATS!!

The flat surface on the jaws of the *Fish Grip* helps to prevent the puncture of thin tissue in the mouth of the fish.

The lip bone of the fish rolls to either side of the point of the jaws of the *Fish Grip*, safely securing your catch.
